

Changeover from WPS 3 to WPS 3.2 EasyWay

Expand your Product Range by Changing Over to WPS 3.2 EasyWay

Advantages of WPS 3.2 EasyWay

- High degree of recognition, simple changeover from WPS 3 to WPS 3.2 EasyWay
- Modern design with clearly structured display and tab selection
- Multi-touch operating concept with large 24" monitor and new hand-held operating device
- Table programming system EasyTab as macro replacement for simple axis corrections and axis travel commands
- Help line for information on selected input field
- Simplified input of spring geometry at spring coiling machines

WPS 3.2 EasyWay enhances your possibilities

- **iQsmartbend** for bending machines
- Bending-after-the-cut for BM 90
- New camera system "WAFIOS Vision System" for spring coiling machines
- No additional control panel carriage required if machine is equipped with **iQcontrol**
- XML protocol function for spring coiling machines
- OPC-UA interface for spring coiling machines
