

Partial Retrofit R x1: Drive technology

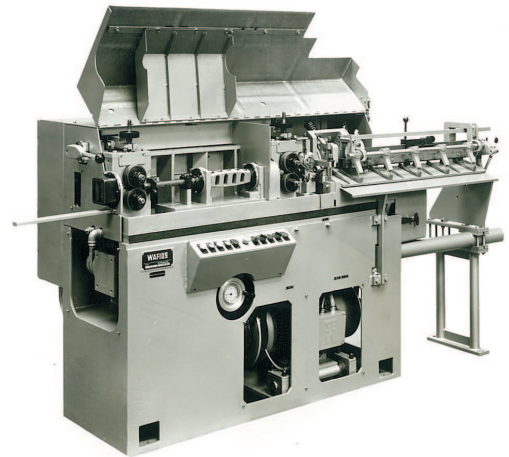

■ Scope of partial retrofit R x1:

Conversion of central drive to a master/slave drive:

- Master drive: Pulley rotor
- Slave drive: Frequency-controlled feed motor, infinitely adjustable

■ Your benefit:

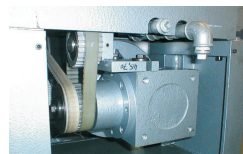

- Replacement of discontinued Variducer transmission unit
- Exchange of old Variducer transmission unit with customary standard component including manufacturer warranty
- Increased energy efficiency thanks to IE3 motor
- Maintenance-free drive technology
- Constant torque over the entire speed range
- No length variations caused by a worn drive
- Extension of lower feed speed regulation range
- Wire insertion (option): Slow threading in of wire with the spinner at a standstill

▲ Frequency-controlled feed motor

▲ Old feed drive: Variducer

▲ Original handwheel for adjusting the feed unit

We gladly provide you with further information.
