

Retrofit AS 4

■ Retrofit AS 4:

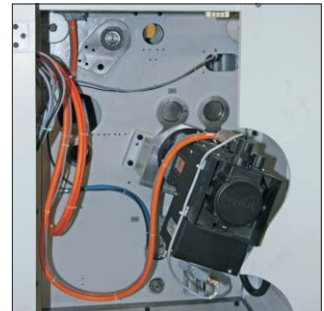

- Controls for feed and cut are converted to servo-drives
- Feeding shaft and pneumatic system are replaced
- Two-axis CNC/ SPS - control
- In addition the installation of external measuring systems is possible, for example the camera measuring system to measure the loop position for your additional equipment FOA 4.

■ Your Benefit

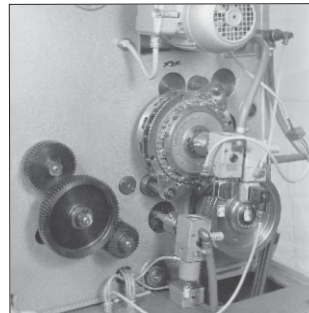

- ✓ Stable machine base is carried over
- ✓ Tools are existing
- ✓ Availability of spare parts by using latest technology
- ✓ No additional training expense - since the machine is familiar
- ✓ Productivity increase
- ✓ Raising efficiency e.g. saving energy by using new controls (reduction of operating costs)
- ✓ Higher Quality
- ✓ Adaptation to current standards of work safety and environmental standards

new:
servo-drives

old: mechanical drives

old: hydraulic drives

We will gladly provide you with further information.
