

Retrofit FUL 10

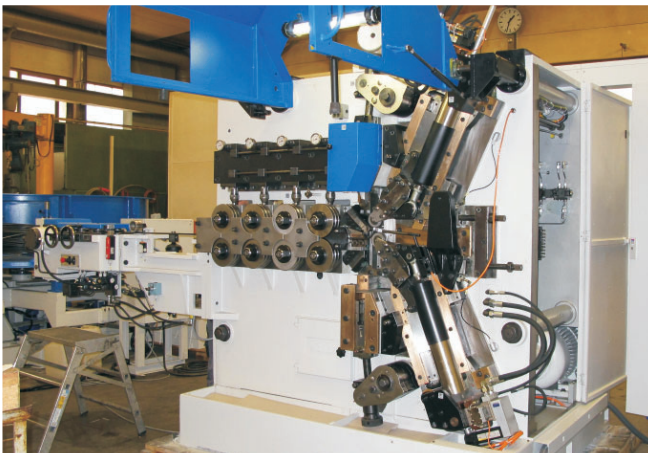

■ Retrofit FUL 10 - consisting of:

- Change to a pc-based control system with WAFIOS Programming System WPS 3
- New control cabinet on exchange base with operation desk and hand operation device
- New linear drives for shape and pitch on exchange base, with servomotor and position feedback
- Change from clutch drive to controlled servomotor

■ Your Benefit

- ✓ Added value for your machine
- ✓ Adaptation of the operating interface to WPS 3 WAFIOS standards
- ✓ Stabilization of the production process
- ✓ Tools are existing
- ✓ Stable machine base is carried over
- ✓ Newest technology and therefore higher availability of spare parts
- ✓ Raising efficiency e.g. saving energy by using new controls (reduction of operating costs)
- ✓ Higher Quality
